

2021shangneng s solar container orders

Overview

Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Particularly beneficial in remote areas, it ensures a stable energy supply or can substantially supplement or even substitute a public grid prone to strong power fluctuations, as well as diesel generators. Shipments of solar photovoltaic (PV) modules (solar panels) rose to a record electricity-generating capacity of 28.
