## Overview

---

With Carbon Yuan's modular design, that's not sci-fi – a pilot project in Ohio is doing exactly that, using solar canopies and 500kWh storage units to power both the store and 62 EV charging stations. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Solar container is an essential component in the world of industrial refrigeration, providing efficient and reliable solutions for preserving perishable goods. But here's where it gets interesting – their energy-as-a-service model lets operators pay per cycle instead of upfront costs. A solar farm in Arizona switched to this plan and saw cash flow turn positive 11 months earlier than.
