

# **Electric mobile solar container power supply**

## Overview

---

It integrates advanced photovoltaic modules, inverters, and electrical cabinets into a compact and functional unit. Thanks to foldable solar arrays, the container is rapidly deployable — operating within hours to support power needs across diverse scenarios. Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more).
