Overview

Shipping container solar systems are transforming the way remote projects are powered. Whether you're managing a construction site, a mining operation, or an emergency. Why power a shipping container?

There are many reasons to supply electricity to a container, especially in off-grid settings. Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design.
