

Freetown gravity solar container project construction status

Overview

Construction is scheduled to begin in 2025, with completion expected by 2028, followed by a two-year warranty period. The total installed solar capacity will be 1 GW, with battery storage units having an installed capacity of 200 MW and an energy storage capacity of 400 MWh. The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. The project employs molten salt thermal energy storage technology that utilizes the temperature differential during the salt's heating and cooling processes to store energy. Borrego developed, designed, and built this complex solar-plus-storage project in Freetown, MA. " - 2023 Renewable Energy Journal Before 2022, Freetown's power grid struggled with: The OPV storage system implemented in 2023 delivered: 1.
