

Gabon photovoltaic solar container spot

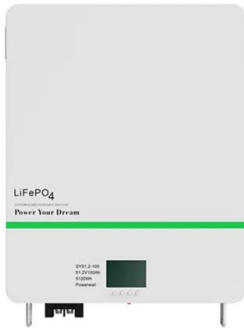

Overview

This product is designed as the movable container, with its own energy storage system, compatible with photovoltaic and utility power, widely applicable to temporary power use, island application, emergency power supply, power preservation and backup. Shipping containers can be converted into solar-powered, self-sufficient homes, ideal for. 440 panels) plant project is the first application of fuel save technology in Gabon. We provide operation and maintenance services (O&M) for solar photovoltaic plants.
