Overview

In 2024, a research team led by Gao Jifan and a group formed by Professor Tan Hairen's team at Nanjing University published a research paper in Nature Communications (a sub-journal of Nature), a leading international academic journal proposing for the first time a solvent. Inspired by the Kyoto Protocol and the US Million Solar Roofs Initiative, Gao Jifan founded. Gao Jifan is founder, chairman and CEO of Trina Solar, a Changzhou-based company specializing in solar panels. Trina Solar, which supplies PV modules and smart energy solutions, listed on the New York Stock Exchange in 2006 before privatizing in 2017. PVTIME - With the launch of its 670W+ ultra-high-power modules in March 2021, Trina Solar led the industry into the 600W+ era and unleashed the full value of 210mm technology, bringing with it a sharp boost in PV efficiency and a decrease in LCOE.
