

German solar container companies

Overview

This dynamically updated ranking offers a glimpse into the primary companies that are influencing the future of Germany's solar energy market. So the two goal-oriented and competent entrepreneurs Thomas Hilber and Karl Pühretmair decide to combine the forces of their renowned companies and to revolutionize the world of mobile high-performance solar systems. Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. Various companies work within this sector, offering solar panels, energy management systems, and installation services to residential and commercial clients.
