

# How heavy is the solar container warehouse

## Overview

---

Long distances and multiple handoffs “add cost, complexity, and frequently risk” to the solar panel supply chain. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability. The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, keeping operations running even in remote areas or where infrastructure is weak. Providing 24/7 clean energy with scalable solar capacity of 30-200kW and battery capacity of 50-500KWh.
