

How is ganfeng lithium s solar container business

Overview

Their direct lithium extraction (DLE) technology works like a molecular coffee filter, separating lithium from brine with 80% less water than traditional methods. Imagine producing enough lithium for 500,000 EV batteries annually while keeping cacti hydrated in the Atacama. As the world's leading lithium eco-enterprise, Ganfeng Lithium's business segments cover from upstream 'lithium resource development', midstream' lithium refinery and lithium metal smelting', to downstream' lithium battery manufacturing and battery recycling'. Ganfeng Lithium: company information — A concise, data-driven profile of one of the world's largest integrated lithium producers and processors.
