

How to say solar container in english

Overview

A solar container house is a building made from a strong container (like a big metal box) that has solar panels attached. It uses sunlight to make electricity, which powers the lights, fans, and machines inside the house. Google's service, offered free of charge, instantly translates words, phrases, and web pages between English and over 100 other languages. This article explains both ideas in easy words so anyone, young or old, can understand.

Solarcontainer explained: What are mobile solar systems?

The Solarcontainer represents a grid-independent solution as a mobile solar plant. Below is a narrative description of how a solar-powered shipping container is revolutionising the face of access to global energy, off-grid energy, grid backup, and clean development for applications ranging from European building sites to African communities and the rest of the globe.
