

Inventronics solar container section

Overview

The new energy business unit under the Inventronics company focuses on the distributed photovoltaic energy storage market, relying on global markets and forming two product lines around residential and C&I application scenarios. Our Solar Battery Storage Systems are designed to the highest safety standards, ensuring reliability and intelligence. The Inventronics New Energy Business provides solutions for the European home solar/storage energy market. Inventronics has built a reputation as a high-quality, cost effective, long-term partner to many of North America's largest Telecom, Cable and Power corporations. Imagine powering a 20kW solar array only to waste 4kW daily through thermal bleed. But who's actually reading about this tech?

Industry pros, sustainability nerds, and that guy in your neighborhood who still thinks hydrogen cars will take over tomorrow.

The new energy business unit under the Inventronics corporate focuses on the distributed photovoltaic and energy storage market relying on global markets and forming two product lines around ...

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart ITC Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- SC & AC Type I SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead Acid and Lithium Batteries
- Max. 6 units Inverter Parallel
- AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation

Inventronics , BOBCAT Cabinet Series

The IVT Bobcat Co-Locate Cabinet Series are designed for broadband node locations supporting remote deployment of network electronics including power supply, batteries and RF components. ...

How Inventronics LED Drivers Power Emergency & Solar Lighting ...

In this video, we'll walk you through how our Inventronics LED driver is used in emergency lighting systems and solar lighting systems, demonstrating its rel
