

Investigation of solar container fire in seychelles

Overview

The Seychelles Fire and Rescue Services Agency was soon alerted of the incident and Seychelles NATION has learned that the fire started after a small explosion in the Hyster container handler – a vehicle used to lift containers on the port. The driver’s compartment of a container reach stacker was destroyed in a fire yesterday morning. (Seychelles News Agency) - Seychelles’ President Wavel Ramkalawan has urged patience from those affected by the two disasters that hit the island nation on December 7, 2023, during a live televised press conference on Tuesday. (Seychelles News Agency) - In the aftermath of the massive explosion from site of the Civil Construction Company Limited (CCCL) that happened in the early morning on Thursday in the Providence Industrial area, many Seychellois businesses are now picking up the pieces and trying to bring back some. Cargo-related fires on board container ships have long been a hot topic in the industry – and rightly so: In 2023, we saw on average one container cargo fire every 9 days, according to statistics from Cargo Incident Notification System (CINS).
