

Italian solar container engineering company

Overview

This article is based on our list of the largest renewable energy EPC companies in Europe; containing general contact details, company details as well as information about asset focus. Operating since 2007, Sunelectrics positioned itself as the trusted partner of Italian and international investors to develop, build and operate large renewable power plants, with a focus on photovoltaics. With more than 50 power plants authorized and built amounting to 70 MW, and other 50 MW. Italy's solar energy market continues to thrive in 2025, with both domestic champions and international players driving innovation and deployment. The company offers expertise in designing, producing, and installing electrical and energy systems, which includes solar energy solutions.
