

Japan s high solar container phase change wax manufacturer

Overview

Nippon Seiro, a specialized wax manufacturer, has a remarkable legacy that dates back to its founding in 1927. Under the leadership of Takuya Konno, the company remains a crucial player in the wax industry, producing a wide range of high-quality waxes for diverse applications. Paraffins with T mpt between 30 and 60 C have particular utility in improving the efficiency of solar energy capture systems and for thermal buffering of electronics and. Wax is a versatile organic compound widely used across cosmetics, pharmaceuticals, automotive, packaging, and candle manufacturing.
