

## Overview

---

As Kosovo accelerates its renewable energy adoption, demand for durable battery enclosures has surged by 40% since 2022. Prishtina Energy Storage specializes in manufacturing weather-resistant, modular battery shells that meet EU safety standards while addressing local climate. SZ) is Brazil's largest battery supplier and has two factories in Brazil, producing lithium-ion batteries and solar modules respectively. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. North America leads with 40% market share, driven by streamlined permitting processes and tax incentives that reduce total project costs by 15-25%. The minister expects that 45 MW/90 MWh and 125 MW/250 MWh battery storage procurement exercises will be launched this year in cooperation with US-based.
