

Large-scale solar container vehicle franchise

Overview

A California-based franchise deployed 20 storage vehicles to support solar farms. Result?

They achieved: Why Partner With Us?

The industrial energy storage vehicle franchise model isn't just about transportation—it's about building resilient, sustainable energy. Investing in a franchise within the solar energy industry presents a particularly lucrative opportunity, especially given the current market dynamics and future outlook. The industry itself is a burgeoning \$50 billion or more market, demonstrating an explosive yearly growth rate of 50%. Oversee all aspects of the origination process including lead generation, bid preparation, commercial and legal contract negotiations, investment-committee. Solar power remains one of the most popular renewable energy sources in the United States and around the globe with solar photovoltaic (PV) panels producing clean, renewable energy for both residential and utility-scale applications. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Our mobile solar systems provide reliable, sustainable power where it's needed most.
