

Large solar container vehicle franchise quote

Overview

Initial investments for launching a local energy storage vehicle franchise prominently feature the franchise fee, which typically ranges from \$15,000 to \$50,000. Customize our all-in-one system to suit your facility - with or without solar - and lower your energy bills from day one. Your system will include battery modules, bi-directional inverters, a thermal management system and controls. Can heavy solar equipment be delivered in a shipping container?

Heavy solar equipment can't always be delivered in a standard shipping van or shipping container, it's at risk of being damaged during transit, and it needs to arrive onsite according to energy project timelines. A solar franchise allows entrepreneurs to operate under an established brand, leveraging a proven business structure, recognized name, and comprehensive support system for selling solar energy services. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.
