

# Latest news on solar container grid

## Overview

---

Tom McCalmont, CEO of Paired Power, told pv magazine USA that the system is intended to be a “grid in a box” that once delivered by flatbed trailer essentially operates unattended once its solar array is unfolded and exposed to the sun. Paired Power’s modular microgrid targets is assembly-free remote industrial and agricultural applications and rural electrification for Indigenous communities. Government initiatives and disaster resilience programs boost the adoption of solar containers for emission-free power. The Solar Container Market is driven by rising demand for off-grid renewable energy solutions, increasing focus on sustainable power in remote areas, and rapid deployment needs for disaster relief and temporary infrastructure. BoxPower announced it was awarded close to \$3 million in grant funds from the California Energy Commission (CEC) through the Electric Program Investment Charge.
