These modular systems combine photovoltaic panels with advanced battery technology, offering scalable power for industries ranging from telecom stations to remote villages. In Madagascar, where energy storage cabinets are becoming as crucial as vanilla exports, brands are racing to provide solutions that combine solar power with cutting-edge battery tech. With only 15% of rural areas connected to the national grid, companies like Anka are turning villages into mini. Global South Utilities (GSU) has secured agreements with Madagascar to develop a 50 MW solar plant and a 25 MWh battery energy storage system (BESS) in the island nation.
