

Madagascar lithium solar container power supply

Overview

On June 7, 2025, a complete residential energy storage system comprising a 30 kWh GSL energy storage battery, a 15 kW Solis inverter, and solar photovoltaic panels was successfully installed in Madagascar, enabling customers to achieve self-sufficiency in daily electricity. Huawei SmartLi Lithium Battery UPS provides reliable, high-performance energy storage, offering scalable and efficient backup power solutions for critical systems with enhanced safety and long-term sustainability. Global South Utilities (GSU) has secured agreements with Madagascar to develop a 50. The container battery utilizes 700-Ah lithium iron phosphate (LiFePO₄) cells in a liquid-cooled 1,500 to 2,000-volt configuration. Despite its massive 8-MWh capacity, the system can fit into half a standard shipping container, weighing approximately 55 tons (50 tonnes). At this industrial plant in Madagascar, we have built an integrated solar-storage-diesel microgrid system, achieving complete energy independence for the plant.
