

New solar container construction plan announced

Overview

-- (BUSINESS WIRE)-- Standard Solar and Port Newark Container Terminal (PNCT) have completed a 7. The solar installation now generates 50 percent of the terminal's annual energy needs, greatly reducing. The Port Newark Container Terminal in New Jersey is now one of the few shipping hubs in the world to use on-site solar power to cut its own emissions (cropped; courtesy of Standard Solar). Photo courtesy Port of Los Angeles The Port of Los Angeles has issued a request for proposal for the pre-development of Pier 500, a new marine container terminal that would be the first built at the port in a.
