

New wind and solar container installation

Overview

Uncover how shipping container energy storage systems offer a sustainable bridge to utilizing renewable energy. Gain insight into the multitude of applications, from grid support to off-grid independence, that these systems can serve. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. It took America 50 years to reach 5 million solar installations and it will only take us 6 years to reach.

New wind and solar container installation

How to Install a Solar Container for Island Power

Discover how to set up a solar container for island energy, including real-world examples, key equipment, and weatherproofing tips. Learn what's needed for off-grid success.
