

No stacking of items allowed in solar container

Overview

In any circumstances, for vertical landscape packages, it shall not be stacked more than two layers; for vertical portrait packages, stacking is not allowed. The working ground needs to ensure that the packaging box can be placed horizontally and steadily to avoid tipping. This manual describes the handling, storage and unpacking of JinkoSolar PV modules. If multiple panel types are to be stacked on a given pallet, they should be stacked with the largest modules on the bottom of the stack and the smallest modules on the top in a manner that will prevent the stack from.

No stacking of items allowed in solar container
