

# **Power storage enterprise factory operation**

## Overview

---

These large-scale industrial energy storage systems in factories and warehouses, besides providing power during outages, also facilitate the smoothness of operations by shifting loads and shaving peaks. BatteryEVO believes that energy independence is not only the future but also the present. Built on a modular platform, the Energy Base solution offers durations of 8-22 hours up to gigawatt-hour scale delivering the LDES capacity needed for a clean, resilient and reliable energy system. Created for utility-scale applications, this solution delivers eight hours of energy storage with a. LondianESS, a leading innovator in energy storage technology, specializes in high-performance Industrial and Commercial Energy Storage factories, delivering cutting-edge battery storage systems tailored for large-scale enterprises.
