

Power storage project

Power storage project

Statera Energy secures planning approval for 500MW Sundon battery

15 January 2026: Statera Energy has secured planning approval for its Sundon Storage project following a positive decision by Central Bedfordshire's planning committee. Sundon Storage ...

Greenvolt secures EUR58.9 million project finance with Unicredit Bank for

Greenvolt Group, through Greenvolt Power - a leading global developer of large-scale wind, solar, and battery energy storage - has signed EUR58.9 million in project finance facilities with UniCredit ...

Adani Group Announces Strategic Entry into Battery Energy Storage

Adani Group announces its foray into the Battery Energy Storage Systems (BESS) sector with a pioneering 1126 MW / 3530 MWh project (The BESS project would have a power capacity of ...

China's Giant Lithium-Ion Battery Storage Project Set to Become a ...

The project, which was officially launched on January 20, 2026, aims to enhance China's energy storage capabilities. The facility is

designed to store up to 100 GWh of energy,
capable of ...

5 MW Hybrid Solar and Battery Energy Storage Project Announced by ...

Project to Participate in Community Solar Program, Enabling Local Residents to Benefit from Clean Energy Without Rooftop Installations
TORONTO, Jan. 20, 2026 /CNW/ - PowerBank ...

5 MW Hybrid Solar and Battery Energy Storage Project Announced by ...

PowerBank Corporation is an independent renewable and clean energy project developer and owner focusing on distributed and community solar projects in Canada and the USA. The ...

Figuring Out a Battery Storage System to Fit New York's Wind and ...

Solar and wind power are planned to develop in tandem with battery storage so excess energy can be saved while nature provides wind or sun. Battery storage is meant to help ease any ...

New Energy Storage Project in Southeastern Europe Set to Break ...

On January 20, 2026, at 09:30, it was announced that the Maritsa East 3 power plant will officially commence operations of its 500 MWh Battery Energy Storage System (BESS). This project, ...

Construction underway on 300-MW solar + storage project in

Construction is underway on the 300-MW solar and 1,200-MWh storage Pioneer Clean Energy Center in Arizona. The project is developed by BightNight and

Estuary Power Achieves Final Completion of Escape Solar and Storage

Estuary Power achieved final completion of all phases of its Escape Solar and Storage project in Lincoln County, Nevada in December 2025. Escape is now supplying 185 megawatts ...

Anza Power makes big entry in Australia with 1.4 GW solar and 3.4 ...

Renewable energy platform Anza Power has launched in the Australian and New Zealand markets with the acquisition of a 1.4 GW pipeline of solar developments and more than 3.4 GWh of ...

ENERGY STORAGE PROJECTS

Accelerated by DOE initiatives, multiple tax credits under the Bipartisan Infrastructure Law and Inflation Reduction Act, and decarbonization goals across the public and private sectors, energy storage will ...

Elevate Renewables Acquires Major Battery Storage Project in PJM

A Massachusetts-based energy group that owns and operates energy storage and hybrid power generation assets said it has acquired the largest standalone battery storage project in the ...

County to vote on solar, battery storage abatement Monday

After over a year of discussion, the Young County Commissioners Court will consider granting a tax abatement for a solar and battery storage project next week. The Tapaderos project ...

300-MW Solar + Storage Project Breaks Ground in Arizona

Construction is underway on the 300-MW solar and 1,200-MWh storage Pioneer Clean Energy Center in Arizona, developed by BrightNight and Cordelio Power with Fluence BESS ...

Elevate Acquires Prospect Power Storage, a 150 MW Battery Asset in

In 2024, Elevate announced a 15 MW/60 MWh battery storage infrastructure project at the Arthur Kill Power Station in Staten Island, NY, which will be the largest battery storage installation in

Battery storage site developers to meet face-to-face with Highland

Battery storage site developers to meet face-to-face with Highland Falls residents about new project The goals include making renewable electricity 70% of the power grid by 2030 and a

...

County commissioners approve data center, power plant facilities ...

CHEYENNE -- Plans are moving forward on a proposed power plant and a data center campus south of Cheyenne following the Laramie County Board of Commissioners' approval last ...

Agawam advances with debated battery energy storage project

Agawam is moving forward with plans for a controversial battery energy storage facility on 17 acres of industrial land, previously a lumber site, which could store up to 250 megawatts of ...

5 MW AC Distributed Solar and Battery Energy Storage System Project ...

The Company develops solar and Battery Energy Storage System (BESS) projects that sell electricity to utilities, commercial, industrial, municipal and residential off-takers.

NYCEDC Advances Green Economy Action Plan with Support of ...

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the 100MW battery ...

Swift Current Energy Executes Sale of Prospect Power to Elevate

The sale of the 150 MW/600 MWh battery storage project further supports Swift Current Energy's near-term growth strategy, as the company advances projects through development and ...

U.S. Grid Energy Storage Factsheet

The U.S. has 431 operational battery energy storage projects, 8 using lead-acid, lithium-ion, nickel-based, sodium-based, and flow batteries. 10 These projects totaled 27 GW of rated power in 2024, 8 ...
