

Sao tome and principe construction and solar container group s plant is in operation

Overview

All units of the plant are now under commercial operation, after successfully being connected to the local electricity [pdf] The project, which has a targeted capacity of 11 MW, is aimed at cutting reliance on costly thermal generation and securing greater energy independence. The project, planned to be developed in two phases, is expected to be fully operational by the second half of 2026. The Energy Sector Rehabilitation Project focuses on the rehabilitation and expansion of the hydro power plant of Contador, located on the island of S. ALER had the opportunity to visit Sao tome and principe high-tech energy storage Global OTEC's flagship project is the "Dominque," a floating. FB GROUP signed an investment agreement on October 10 th, 2023 with São Tomé and Príncipe for energy production, through the installation of several Power Plants in São Tomé and Príncipe, aiming at the production and sale of energy to the State, through the Water and Electricity Company (EMAE).
