

Smart solar container cabinet models and specifications

Overview

A mobile solar container is a factory-built, transportable unit that integrates solar panels, battery storage, and power controls—providing plug-and-play, rapid-deploy clean electricity for remote sites, events, and emergency response. Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. Transportable via standard shipping container, the system achieves full operational capability within 4-6. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar.
