Chinese Cargo Ship Converted To Launch Advanced Combat Drones ...

In a major follow-up to three of our recent stories on China's weapons developments, we can now report that what appeared to be a modular, road-mobile, electromagnetic aircraft launch ...

China Turns Cargo Ships Into Warships: Electromagnetic Catapults

China is integrating electromagnetic drone catapults and containerized VLS at sea, turning civilian ships into latent warships and reshaping Indo-Pacific naval warfare.

China has built a snap-together container aircraft carrier. The numbers

Images have emerged of a Chinese medium-sized cargo ship, docked at Shanghai's Hudong-Zhonghua shipyard, fitted with a modular electromagnetic catapult for launching advanced ...

China turns merchant ship into drone carrier with mobile

Electromagnetic catapults demand substantial electrical power, particularly when launching heavy aircraft over short distances. The drones themselves would need to be structurally robust

enough

Is This China's Truck-Mounted Electromagnetic Catapult?

New imagery of Chinese catapult-capable low-observable combat drones, or possibly mockups thereof, together with some unusual trucks, may point to plans to launch them from the ...

Magnetic catapults likely being tested on world's first drone carrier

The EMALS system provides greater launch control than traditional steam catapults, allowing faster, more frequent crewed and uncrewed aircraft takeoffs.

How could China use its VLS/ EM catapult container ship?

This video explores the mysterious weaponized container ship seen in China. Various configurations, from an air defense VLS missile equipped one to a drone launcher using a novel EM catapult

China builds drone catapult and weapon systems on freighters

The presumably electromagnetic catapult is on wheels. The four individual sections of the catapult each have four axles and are equivalent in length to a 40-foot container (around 12 meters), ...

American electromagnetic catapult solar container

When you're looking for the latest and most efficient American electromagnetic catapult solar container for your PV project, our website offers a comprehensive selection of cutting-edge products designed ...
