

Solar container enters the game

Overview

After Rain Comes is a quest for Celeste that's unlocked after completing Shani's quest, Eyes In The Sky, and it takes place in the Buried City. The solar container is a result of many experiments done in the laboratories of Hell's Gate to maximize solar power intake. It is used as source of energy, due to the difficulty in transporting petroleum products all the way to Pandora. Power generation for a whole underground city is a huge undertaking, and besides generators, Speranza also relies heavily on solar power to help keep things running since there's plenty of sun, and it's an easy and relatively safe method of doing so. Can you create the most epic planetary apocalypse ever seen?

Let's blow everything up! Welcome to the Adventure of Blowing Up the Solar System! Step into Solar Smash and dive into a world of unparalleled destruction! This isn't just a game; it's a playground for cosmic conquerors. The door that uses this key leads to a massive room filled with valuable loot, but it can be pretty tricky to find.
