

Solar container investment restructuring plan announcement

Overview

Bankruptcy Court for the Southern District of Texas, the Oakland, California-based company outlined a plan to either convert its debt to equity or pursue a sale of its assets, as it grapples with liquidity constraints. Utility-scale solar developers are facing a cash crunch as financing necessary to complete projects dries up and construction costs continue to rise. Restructurings in some cases loom as prospects for the sector dim under a new presidential administration scuttling government programs that had. On June 1, 2025, Debtor Sunnova TEP Developer, LLC filed a voluntary petition for relief under chapter 11 of the Bankruptcy Code. DVC Partners will contribute 30 million euros in capital and provide a 15-million-euro loan.
