

# Solar container panel leaking

## Overview

---

While they are designed to withstand harsh weather conditions, certain circumstances can lead to water infiltration. A leak in a solar panel requires immediate attention to save costs in lost fluids and the loss in the effectiveness of the solar panel. Leaks in solar heating panels can be repaired, but in some cases, it is not a DIY operation and requires professional intervention. A leaking tank can be a frustrating problem that not only wastes water but can also lead to costly repairs. You're not alone in facing this issue, and it's important to understand what might be causing it.
