Solar container sales solutionepc

Overview

We model your load profile, design to structural and electrical realities, optimize incentives, and manage Rule 21 interconnection through permission-to-operate. As energy challenges grow, our solar container solution was created to meet the need. It provides clean, efficient power wherever you need it and can also generate profit. The container is equipped with foldable high-efficiency solar panels, holding 168–336 panels that deliver 50–168 kWp of power. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.
