

Solar container subsidy madagascar policy

3.2v 280ah

Overview

The government will subsidize up to 60% of the cost of installing a residential energy storage system, with a maximum subsidy of 50,000 kroner or \$5,600. With all regions of Madagascar enjoying over 2,800 hours of sunlight per year, the Grande Ile is the perfect location for development of solar power, with a potential capacity of 2,000 kWh/m²/year. The Off-Grid Market Development Fund (OMDF) has launched a performance-based grant scheme for solar kit suppliers in Madagascar. Since 2019, atmosfair has been financing several renewable energy projects in Madagascar and wants to show further investors that a sustainable energy turnaround is possible on the island. As renewable energy adoption skyrockets, these thermal management marvels are solving the "battery fever" that plagues traditional systems.

Solar container subsidy madagascar policy
