

# Solar container system module

## Overview

---

A shipping container solar system is a modular, portable power station built inside a standard steel container. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. It's road-ready and quick to deploy, making it ideal for remote worksites, disaster relief, events, and temporary camps — and in many cases, it can replace grid connections or.
