Solar container system testing patent

US20130233755A1

The container is integrated with a commercially licensed or third party supplied internal covert electronic sensor package consisting of a possible combination of an internally mounted, geo-location detection ...

KR20120014820A

The present invention relates to a container ship having a photovoltaic device, and more particularly to a container ship having a photovoltaic device that can reduce the cost per unit power by producing ...

US8353167B2

The present invention relates generally to an environmentally friendly refrigeration unit and more particularly solar-powered refrigeration container that allows stored foods, beverages and other ...

WO2021001852A1

Disclosed herein is a solar powered cold storage system for providing refrigeration of a container (112) and its contents which comprises one or more solar panel (102) with photovoltaic modules, where ...

1mwh (500kw/1mw)
AIR COOLING
ENERGY STORAGE CONTAINER

SOLAR ENERGY CONTAINER SYSTEM AND METHODS

More specifically, the present disclosure is directed to a solar energy cargo system capable of receiving and storing solar energy, and powering electric or hybrid electric vehicles using the received solar ...

Solar-powered refrigerated container

[0065] As stated above, the solar-powered container 10 of the present invention is not only powered by the solar energy gathered by the solar collector 26, but it also has an internal ...

U.S. Patent for Containment, storage and shipping of lithium batteries

2. Established a flexible coating system, particularly with the use of the FIREFREE 88 coating, based on our extensive testing on many different material substrates, that can be used in ...

Lightweight And Collapsible Or Foldable Patents (Class 136/245)

Lightweight And Collapsible Or Foldable Patents (Class 136/245) Solar axis tracking system for portable container unit with retractable photovoltaic solar panels Patent number: 12316270

Solar Energy Type Patents (Class 136/206)

An anchoring system maintains positional stability using concrete blocks interconnected by plastic-coated stainless-steel wires. A bi-facial solar photovoltaic panel is supported by the cross ...

Taiwan's Foxconn Patents Solar-Powered Data Center Container

Taiwanese electronics manufacturer Foxconn Technology Group, which produces everything from Apple's iPhone and Microsoft's Xbox One to HP servers, has patented two data ...

Shipping container patented technology retrieval search results

Patsnap Eureka AI that helps you search prior art, draft patents, and assess FTO risks, powered by patent and scientific literature data. A shipping container is a container with strength suitable to ...

SOLAR PANEL PROTECTIVE CONTAINER APPARATUS AND SYSTEM

The present invention relates to the field of solar power generation substrates and systems, and more specifically relates to a solar panel protective container apparatus and system configured to protect ...

Thermal energy storage systems including a shipping container, a ...

A thermal energy storage system includes a container and a heat exchange apparatus disposed within the container. The heat exchange apparatus includes a tank, a manifold at least partially disposed ...

UL Solutions Debuts Testing and Certification Framework for Safer ...

Our new plug-in solar system certification program gives manufacturers and consumers the clarity they need to embrace plug-in solar systems with confidence.

20140238467 SOLAR POWERED CONTAINER

This patent search tool allows you not only to search the PCT database of about 2 million International Applications but also the worldwide patent collections. This search facility features: flexible search ...

SolaraBox Solar Containers , Products & Configurations

Expert Team Our core team brings 15+ years in renewables and container manufacturing. From system design to factory testing, we size and deliver SolaraBox Mobile Solar Containers that meet site ...
