

Solar container welded pipe cap

Overview

They're attached to the pipe using a socket welding process, which involves inserting the pipe into the socket of the cap and then welding them together. These Solar Panel Array Mounting Brackets / Top Caps are the perfect solution for your ground mounted solar array needs! This easy to use universal mounting solution provides a secure and dependable way to construct a reliable and long lasting ground mounted off grid solar system. This bracket is modular and allows an infinite combination of solar panel mount configurations. It sits on the vertical pipe and cradles the horizontal member to form a rigid "T" connection, enabling quick rail/frame alignment with a durable, powder-coated aluminum body. SunTurf Ground Mount System easily integrate Helio Rails with Schedule 40 steel pipes.

Solar container welded pipe cap
