

Specifications of outdoor solar container batteries of haineng industry

智慧能源储能系统
Intelligent energy storage system

Overview

Optimized for mid-size factories, desert solar farms, and hybrid grid substations. With 140kW solar and 215kWh battery in a 40ft container, it handles heavier industrial loads in harsh outdoor conditions, supporting sustainable operations with minimal maintenance. We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are EVE brand, whose LFP chemistry packs 215kWh of energy into a battery volume weighing 3100kg. This guide simplifies technical details while highlighting how these solutions empower industries like renewable energy, grid stabilization, and industrial power management. Equipped with durable 480W PV panels, it supports manufacturing zones or logistics hubs where autonomous power is essential. High efficiency power up to 400/500/600/700W Half Cell/Bifacial Solar PV Modules; All certificates listed with more than 30years life and warranty: PID Resistant, High salt and ammonia resistance. We have an annual manufacturing capability of 600 thousand vacuum heat collection tubes and 20,000 -> Large capacity, Max to 2042Wh -> High-power Solar Charging, it supports solar panel charging from 120W to 1000W. -> Bi-Directional Inverter Technology, With AC input up to 2000W, the power station.
