

Top mounted industrial air conditioning solar container air conditioning unit

Overview

Our top-mounted air cooling solution overcomes this constraint by positioning the main unit on the roof of the container, freeing up internal space for more efficient use and configuration of energy storage components. ICEqube's Top Mount air conditioners range from 2000-8000 Btu/h (586-2345 Watts) of closed-loop cooling. At Container Technology, we offer a wide range of HVAC solutions designed to meet the needs of businesses across industries, from construction and retail to agriculture and healthcare. Whether you need simple ventilation or complete temperature regulation, our HVAC modifications help you maintain.
