

Tower company retired solar container

Overview

Thousands of steel giants – the workhorses of the clean energy revolution – are reaching retirement age. These aren't weary power plants, but the robust, weatherproof, electrically prepped enclosures that housed the battery energy storage systems (BESS) that stabilized our grids for. Baraka joined the Port Authority of New York and New Jersey and Port Newark Container Terminal (PNCT) today to announce the completion of one of the largest solar power installations at any container terminal in the world. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. The role encompasses energy management, benchmarking, capital project planning, IAQ monitoring, sustainable transportation.
