

Us household solar container promotion

Overview

- All households are potentially eligible, with the largest rebates going to those with lower incomes.
- You can save up to \$8,000 depending on your household income and project's energy savings. Looking for more information about how to save with ENERGY STAR products?

Find and compare ENERGY STAR products to see how. The US government has rolled out a series of tax credits for people who install solar power systems. If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit. The Residential Clean Energy Credit equals 30% of the costs of new, qualified clean energy property for your.
