Overview

The Policy, Consulting and Review Bureau is responsible for interpreting the law into policy and procedures for non-technology goods and non-professional services, which are published in the Agency Procurement and Surplus Property Manual (APSPM) and the Vendor's Manual. Bill Title: Virginia Public Procurement Act; solar photovoltaic equipment and facilities. In March 2020, after a coordinated lobbying effort by clean energy advocates, environmental organizations and many other stakeholders, Virginia passed the Clean Economy Act, which will create up to 29,000 solar jobs while providing enormous market opportunities for both distributed generation and. At least 35% of energy storage must be procured from third parties, either as service contracts or build-transfer, and the bill specifies a "goal" of 10% behind-the-meter energy storage.
