

Which equipment is used for solar container detection

Overview

Cut maintenance, extend runtime, and track remotely with weather-sealed solar GPS tracking devices. Choose cost-effective 4G solar trackers for areas with cellular coverage or satellite solar trackers for truly off-grid assets. However, in a recent industry & business talk, one comment stood out: “Customers aren’t asking where the container is. The NVX Series capacity range is from 38,000 lb to 85,000 lb of tractive effort, with single or double coupling. Durable solar panels are now being built into trailer and container tracking devices to create true, ruggedized solutions.
